B I O G R A P H Y

DJ SAREZ is one of the hardest working DJs on the club circuit, and has played at some of the biggest venues in South Australia and major touring festivals such as Future Music, Parklife, and Summarize. DJ SAREZ also appears regularly on radio mixing live sets on Adelaide's Fresh 92.7 and has also hosted the legendary 'Mix Up' segment on Triple J. Known for his Hands in The Air Party Jams and big room club sets, DJ SAREZ is no stranger to the main stage.

His popularity was acknowledged when he was voted No.1 South Australian DJ twice by the inthemix50 awards and he also polled in the TOP 50 Australian DJs in 2006 and 2008. Hailing from the Riverland in Adelaide, DJ SAREZ developed his love for vinyl in the 90's as a kid during an overseas holiday in Europe. Two years later, he bought his first pair of decks and before long he had mastered the art of mixing. DJ SAREZ spent the next few years playing at parties and promoting his own shows.

By the late 90's he had single-handedly pioneered the dance scene in the Riverland. In 2001 DJ SAREZ established his name in Adelaide, winning the 'Heaven' nightclub's prestigious DJ competition, beating 35 of the state's finest up and coming DJs. With regular guest spots at 'Heaven' and the legendary 'Chemistry' on Thursday nights, DJ SAREZ began developing a huge crowd following. He was then being asked to play at every major club in Adelaide. With continuous hard work and his popularity growing from strength to strength, DJ SAREZ now holds a permanent place at 'Marble Bar' and 'Apple' in Adelaide along with running his own club nights in the Riverland.

DJ SAREZ also regularly appears on radio co-hosting Synergy on station Fresh 92.7 and Hitbreaker on station Magic 93.1. He has also hosted the legendary Mix Up segment on JJJ. DJ SAREZ is always on top of the game converting his early 90's vinyl skills to utilizing CDJ's. He still loves his 'Hands in The Air' party style jams. DJ SAREZ has been one of SA's most versatile DJ's, playing at everything from big music festivals to funky bars. He is a lover of all electronic music. His performances are always about the punters and his sets have something for everyone.

You are entrusting the music you want to hear on this special occasion to someone who does not know you personally. We hear you. We understand what the occasion means. The DJ you select will intimately know the music genre you have chosen. You want Pop, Rock, Latin, Disco, Hip Hop Rap or any of the 50 or so styles of music that has been labelled, then we have the DJ who can present that to you.

An in-depth quality controlled training and assessment program is required for all the DJ talents available at SIFA Events, ensuring staunch quality and highest caliber for your events.

SIFA ACADEMY

SIFA Academy has been a natural extension of SIFA Events. Why? Well, it makes sense that if we are advertising the hire of DJ's, then we want well trained, client-focused entertainers that will rock any event. During an intensive training program, aspiring DJ's will be taught the basic fundamentals of music presentation as part of learning their DJ skills. They will learn how to market themselves as an artist and be able to present potential employers with a fully prepared industry-ready portfolio of professional photos and video content. All successful graduates from SIFA Academy can become representatives for SIFA Events. That means we fully endorse the quality of our training.

To become a Disc Jockey, you need to first listen to the best and learn from them. In other words, you have to carefully sample some of the best products from the top entertainers and try to learn how well they blend their mixes. That's something we understand at SIFA Events and forms part of the Academy's curriculum. We nurture, train and promote new and up and coming DJs for a long and prosperous career in the music entertainment industry.
